

<b>Course Title</b>	<b>Production potential and structural changes in agriculture – Polish example of the influence of EU integration</b>
<b>Name, Institution and position of the presenter</b>	Wawrzyniec Czubak; Ph.D. Poznan University of Life Sciences; Faculty of Economics and Social Sciences. Poland
<b>Date</b>	22 of May 2014
<b>Venue</b>	Department of Economics and Social Sciences, Universidad Politecnica de Valencia

### Objectives of the course:

The science objective is to present the results and confront the approach to the evaluation and economic analysis of the EU Common Agricultural Policy. It is essential to discuss the achieved results and future of the CAP after 2013 from the perspective of the various EU countries. Scientific aim is to introduce the methodology and indicators used for evaluation of the CAP. It may become starting position for the development of international cooperation in this respect.

### Course contents:

Changes in Polish agribusiness in the aspect of:

- production potential: land concentration, structure of agricultural holdings
- consequences of EU integration: structure of global and commercial agricultural production; investment in agriculture; development of the food industry; foreign trade in food products
- distribution of financial resources from the mechanisms of the EU CAP
