3.10 Internship

Should you wish to, you can apply for an internship in a company. The office dealing with internships in companies in our School (ETSII) is the *Subdirección de Relaciones con Empresas*.

The management requires that the student is previously enrolled at ETSII, and its processing may require having an electronic signature in Spain; however, it may be convenient that you have the one from your country before moving to Valencia. This possibility is not advisable for students doing only one semester of exchange. We cannot guarantee an internship since companies do the selection of the candidates.

3.11 International Office summer Holidays

The ETSII International Office will be closed in August. All the admission procedures will be completed by the end of July. During August you will only have to choose the groups of the courses. When we return in September we will proceed with the course registration so that everything is ready upon your arrival.
