

INTERNSHIP IN BRNO

KoPlacement is a service provided by KoPlac which helps students to find an internship in the Czech Republic. We support students in organizational process, provide them with needed information and help with all the documentation. We also give them information about the city and help finding an accommodation.

Evektor is situated in Brno, Czech Republic. It belongs among the leading development and manufacturing companies which are active in the aircraft industry of the Czech Republic. This internship is a perfect opportunity to gain working experience in an international company.

Currently Evektor is looking for an intern on a position of 3D Modeller/ A-Class Modeller.

Key activities during internship:

- Creating exterior and interior surfaces to customer specifications
- 3D modelling in Icem-Surf and Autodesk Alias
- Conceptual modelling and design
- Close cooperation with design and construction

Benefits for the student:

- Gaining work experience in big international company
- Personal development
- Immersion in different culture
- Speaking foreign language
- Getting out of comfort zone
- Increased chances for finding well paid job
- Learning how to work in multicultural team
- Adapting to new environment
- Company provides intern with financial compensation, accommodation and cover transport at costs

To take part in this internship, students must be qualified to get an Erasmus+ placement. Students who want to apply should fill in the following survey: <https://goo.gl/eYkNqk> and send their CV to koplacement@koplac.cz

If you have any questions do not hesitate to contact us.

Best,
