

## Intensive Spanish Language Course

### FAQ

**Where can I find the certificate of registration for the Spanish course?**

In the same place where you have registered for the course, in the tab "documents".

**Is enrolment in the course automatic?**

No. Once you have pre-registered, if you have applied for the reduced fees, we need to check that you are a UPV exchange student. This may take a few days.

**Are ECTS credits recognised for the course?**

Yes, the course has a workload of 4 ECTS.

If you are a UPV exchange student, once the course has finished, the international office of the school or faculty where you are studying at the UPV will receive your grade and level and will automatically include it in your UPV transcript.

Since the end of the course coincides with the beginning of the semester, your enrolment, the signing of all certificates, etc., this will take approximately one month.
