Introduction to the degree

This degree aims to train students in the field of information processing, creation, production and direction across the different audiovisual media.

The program is innovative and develops the capacity for analysis and criticism, the mastery of audio-visual language, the ability to adapt to multimedia communication and future technological environments, and the predisposition to innovate across the different audio-visual and digital media productions.

Internships

Students can do internships in institutions, organizations and companies in the audiovisual communication sector. The school has signed agreements with 108 entities, such as municipal and local radio stations; UPV radio and television; national, autonomous and local television networks, private producers and federated audio-visual enterprises in the Valencian Community, municipalities, associations, advertising agencies and corporations, regional and local newspapers and specialized magazines.

International mobility

The Higher Polytechnic School of Gandia has signed agreements with universities in Germany, Austria, Belgium, Finland, France, Greece, Ireland, Italy, Norway, Netherlands, Portugal, Poland, Czech Republic, Sweden and Turkey.

Continuation of studies

With this degree, you will be able to access to:

- MD in Digital Post Production
- MD in Content and Legal Issues in the Information Society
- others MD + levelling subjects

Professional opportunities

A common choice for graduates in Audio-visual Communications is to work in companies in the audio-visual and media sector that create products for the different media (cinema, radio, television, internet, etc.). It is also common for companies to need an expert in either internal or external communications.

You can also work as a self-employed contractor in media agencies or producers; in the civil service, engage in research; work in the development and innovation of media (in private or public centres and R&D departments in big companies) or teach.

Study at the UPV

Enjoy our huge campuses with spaces designed for you such as the Student Recreation House.

You can do up to 70 sports in our facilities.

You will find many services at your disposal: language classes, discounts in public transport, counselling, employability support…

and be part of Spain’s best technological university according to the Shanghai ranking.
