

If you would like to work with HU Business School for
Online International Student Collaboration (COIL)

My ideas for Online Student Collaboration

HU Business School is seeking colleagues at partner schools to engage with our teachers to organise *online student collaborations* (COIL) in various fields.

Such collaborations can be within similar disciplines or across disciplines and can vary from one day to 6 weeks, at various times during the academic year.

If you have any interested teachers, please (let them) email jelly.offereins@hu.nl and if they can, describe their options e.g. in the format below, and we will try to connect them with a matching teacher/course on our side

Name of your course

--

Degree programme the course is part of	Level/year	When should the collaborative activity take place?	# of participating students at your university

Short description of the course – and how does the collaborative activity fit in – what kind of collaboration do you have in mind?

--

Description of the Online Collaborative Student Activity – what is the idea – what are your students supposed to learn from/experience through the joint activity/activities - what will students do together - what will students deliver, etc.

--

Your name and email
