

# “POSITION YOURSELF & MAKE THE DIFFERENCE”

ESCUELA TÉCNICA SUPERIOR  
DE INGENIERÍA GEODÉSICA  
CARTOGRÁFICA Y TOPOGRÁFICA

## 1- How?

- Enroll in our Master in Geomatics Engineering and Geoinformation

## 2- And .....If I get a Double Degree?

## 3-What is a Double Degree Programme?

- It consists of doing part of your Master's studies at the UPV and part in other European University, and finally obtaining the degrees of both institutions.

# WHICH OPTIONS DO I HAVE?

- The ETSIGCT, currently, has two Bilateral Agreements for Double Degree Programmes with universities of great prestige at an international level.

## 1- ESTP- Paris.

- With this double Degree you will get the Master's degree in Geomatics and Geoinformation at UPV + the "Ingénieur"-Topographie at ESTP- París.

## 2- University of Applied Sciences in KARLSRUHE- Germany( Master of Science in Geomatics)

- Whoever receives the two degrees has excelled under international conditions, has developed a global perspective of the field of Geomatics and is currently an Outstanding Geomatics Engineer.
