Objectives

Basic User – Level A1

At the end of the course, students will be able to understand and use familiar everyday expressions and very basic phrases aimed at the satisfaction of needs of a concrete type. They will be able to introduce him/herself and others and can ask and answer questions about personal details such as where he/she lives, people he/she knows and things he/she has. They will be able to interact in a simple way provided the other person talks slowly and clearly and is prepared to help.

Basic User – Level A2

At the end of the course, students will be able to understand sentences and frequently used expressions related to areas of most immediate relevance (e.g. very basic personal and family information, shopping, local geography, employment). They will be able to communicate in simple and routine tasks requiring a simple and direct exchange of information on familiar and routine matters. They will be able to describe in simple terms aspects of his/her background, immediate environment and matters in areas of immediate basic need.

Independent User – Level B1

At the end of the course, students will be able to understand the main points of clear standard input on familiar matters regularly encountered in work, school, leisure, etc. They will be able to deal with most situations likely to arise whilst travelling in an area where the language is spoken. They will be able to produce simple connected text on topics which are familiar or of personal interest. They will be able to describe experiences and events, dreams, hopes and ambitions and briefly give reasons and explanations for opinions and plans.

Independent User – Level B2

At the end of the course, students will be able to understand the main ideas of complex text on both concrete and abstract topics, including technical discussions in his/her field of specialisation. They will be able to interact with a degree of fluency and spontaneity that makes regular interaction with native speakers quite possible without strain for either party. They will be able to produce clear, detailed text on a wide range of subjects and explain a viewpoint on a topical issue giving the advantages and disadvantages of various options.
