CLASSES

HOW DO WE TEACH

Subjects are organized in groups between 20 and 45 students per class. This entails a limitation of subjects' places for students (exchange and non-exchange). It also entails a well-structured course program

COURSE DESCRIPTION: GUIA DOCENTE

You can check the complete course guide at the site of each Bachelor program

During the first day of class, teachers will explain the course program, that may include theoretical sessions, in-class assignments, home assignments or exams.

Commonly teachers exchange files, documents, tasks or information via POLIFORMA'T.

As student, you are expected to attend all the classes, as attendance is mandatory. Normally it is not possible to pass a subject if you have not attended class or have not done all the scheduled work. A single final exam does not replace the whole semester course program, don't expect to pass this way.
