INTRODUCCIÓN

Las prácticas en empresas son una de las opciones más interesantes para jóvenes graduados/as que aún no tienen experiencia profesional relevante que reflejar en su CV cuando llega el momento de incorporarse al mercado laboral.

Por cierto, si ese es tu caso, no dejes de leer este artículo sobre **cómo plantear tu CV sin tener mucha experiencia profesional**: <https://rebrand.ly/cv0>

El objetivo del periodo de prácticas es proporcionar al alumnado el conocimiento directo del funcionamiento de una entidad para mejorar sus posibilidades de encontrar un puesto de trabajo adecuado a su formación, por lo que está convirtiéndose en una actividad imprescindible, actuando como una pasarela que comunica al estudiante en el tramo final de la carrera con el primer empleo, especialmente en momentos de crisis económicas.

Las prácticas permiten:

- Aplicar en contexto real los conocimientos adquiridos en la Universidad o institución educativa.
- Completar la formación con otros conocimientos prácticos relacionados con las salidas profesionales de la carrera.
- Conocer de primera mano los condicionantes presentes hoy en el mundo del trabajo: competitividad y calidad, apertura de los mercados, globalización de la actividad económica, etc.

Legislación sobre las Prácticas de Universitarios en Empresas

En nuestro país las prácticas de los estudiantes universitarios en empresas están reguladas por el [Real Decreto 592/2014](#) del 11 de julio y el [Real Decreto 1543/2011](#) de 31 de octubre, por los que se regulan las prácticas académicas externas de los estudiantes universitarios. Se distingue entre prácticas *curriculares* y *extracurriculares*. Estas son las cuestiones legales más importantes a tener en cuenta sobre la regulación de las prácticas en España:

- Podrán realizarse en la propia universidad o en entidades colaboradoras, tales como empresas, instituciones y entidades públicas y privadas en el ámbito nacional **e internacional**.
- Las prácticas externas curriculares tendrán la duración que establezcan los planes de estudios; las extracurriculares tendrán una duración preferentemente no superior al 50% del curso académico, procurando el aseguramiento del correcto desarrollo y seguimiento de las actividades académicas del estudiante.
- Es frecuente que las empresas concedan a los estudiantes ayudas económicas para realizar las prácticas bajo la denominación de "Bolsas o Ayudas al estudio", pero se trata de una ayuda, no de una remuneración o contraprestación.
- La realización de prácticas- y esto es muy importante- no entraña el establecimiento de relación laboral alguna entre el estudiante y la entidad que le acoge.
- Las condiciones estipuladas para la estancia se plasman en un Convenio, que es el equivalente, en el plano no laboral, al contrato. Los organismos que gestionan las prácticas y la mayoría de las empresas disponen de sus propios modelos de convenios.
- El Suplemento Europeo al Título recogerá las prácticas externas realizadas.

También afecta a las prácticas en empresas la **Disposición Adicional 5ª del [Real Decreto-ley 28/2018](#)**, de 28 de diciembre, sobre la inclusión obligatoria en Seguridad Social de las personas (estudiantes tanto universitarios como de FP) que desarrollan programas de formación y prácticas no laborales y académicas.

En este sentido, la última normativa publicada es el [Real Decreto-ley 2/2023](#), Disposición Adicional 52ª, que introduce una nueva obligación para las empresas: todas las compañías deberán dar de alta en Seguridad Social a las personas becarias, independientemente de que realicen prácticas remuneradas o no. Queda pendiente (aunque se esperaba a principios de 2025) la publicación del **Estatuto del Becario/a** tal y como lo define el Real [Decreto-ley 32/2001](#) en su Disposición Adicional Segunda.

PRÁCTICAS EN EMPRESAS E INSTITUCIONES EXTRANJERAS

Se trata de una forma más de **perfeccionar** –que no *aprender*– el idioma trabajando. También hay que considerar que muchas empresas están abiertas a aceptar becarios con inglés (sea cual sea el idioma oficial del país), pero que esta predisposición no suele darse a la hora de firmar contratos de trabajo a no ser que se trate de grandes multinacionales.

Generalmente, en el caso de PYMES u Organizaciones Internacionales, **no tienen remuneración**, aunque en algunos programas se incluye una beca destinada a gastos personales. Sin embargo, muchos grupos empresariales o multinacionales ofrecen sus propios programas de formación/empleo para recién titulados/as (o estudiantes de último curso) interesados/as en desarrollar allí su carrera profesional.

Características:

- Edad entre los 18 y 30 años (a veces hay limitación con respecto a la fecha de **obtención del título**, no sobre la edad del/de la candidata/a)
- Nivel alto del idioma del país.
- Proceso de selección de los/as candidatos/as (no hay aceptación inmediata por cumplir los requisitos).

Las tareas a realizar variarán en función del perfil profesional. Las actividades más ofertadas son las relacionadas con los campos de la **medicina, ingeniería o disciplinas técnicas, administración de empresas, sociología-políticas, derecho**, etc.

Muchas empresas y ONGs u Organizaciones Internacionales ofrecen también la posibilidad de firmar un **convenio** con la institución educativa del estudiante interesado/a en realizar un periodo de prácticas en estas organizaciones como parte de su formación práctica obligatoria a lo largo de los estudios (**Erasmus+**). En los links que incluimos a continuación podrás decidir qué tipo de instituciones y/o empresas trabajan en el campo en el que te gustaría realizar prácticas, así como las condiciones de las mismas (duración, posible remuneración, departamentos, titulaciones demandadas, etc.)

Normalmente, la **valoración** de los/as candidatos/as en los procesos selectivos para acceder a un periodo de prácticas en otro país o en Organizaciones Internacionales tienen en cuenta:

- a. Expediente académico.
- b. Formación complementaria en alguna materia de interés para la organización.
- c. Conocimiento de idiomas (además del inglés, otro idioma europeo además del materno es una ventaja)
- d. Capacidad del candidato/a para adaptarse a un ambiente multicultural.

En los links que te ofrecemos a continuación encontrarás información sobre las distintas posibilidades en el ámbito de las prácticas en empresa en otros países (condiciones, posible remuneración, criterios de selección, disciplinas aceptadas, etc.). El listado, en todo caso, no pretende ser exhaustivo.

Algunas de las instituciones que se presentan pueden aparecer repetidas en dos o más apartados (por dependencia funcional o por temática o perfil de candidatos/as). Cuando el conocimiento del idioma sea necesario para optar a un periodo de prácticas, se ha conservado la introducción general **en el idioma** original de cada link.

Ten en cuenta que las instituciones públicas o privadas **no europeas (incluyendo en este caso a UK)** pueden establecer requisitos de acceso a sus programas que incluyan estar en posesión de visados y/o permisos de trabajo en vigor.

LAS PRÁCTICAS Y LAS REDES SOCIALES

Si te interesa estar al tanto de las posibilidades de prácticas que se van presentando procedentes de todo tipo de organismos e instituciones, posiblemente te venga bien tener una cuenta en Twitter y realizar búsquedas periódicas por *hashtags* como #internship o #practicar (internships, stages, Praktikum, tirocinio, etc..)

Cada vez más, las grandes empresas utilizan **LinkedIn** para gestionar sus ofertas de empleo y sus programas de prácticas. Crea o actualiza tu perfil en LinkedIn en inglés y sigue a las empresas que más te interesen. Aquí te dejamos algunos consejos:

[Redes Sociales: ¿una herramienta de búsqueda de empleo?](#)

[Cómo crear el perfil de LinkedIn perfecto para buscar trabajo y establecer contactos profesionales.](#)

Incluso redes más recientes como Tik Tok ofrecen posibilidades. Te lo contamos en este post de nuestro Blog EURES España:

["Scrollear en Tik Tok para encontrar empleo"](#)

Define tus intereses y sigue cuentas relevantes en tu área de interés, además de realizar búsquedas periódicas con hashtags relevantes
