

# International Staff Training Week (ISTW) 2026

## CRAFTing Human-Tech-Society 13-17 April 2026

Join us for the ISTW hosted by [Wrocław University of Science and Technology](#) Poland. This edition focuses on how science, technology and society work together. Part of the [CRAFT project](#), the event shows how research brings real value and how innovation influences everyday life.

### Main Themes:

- Connecting science with real-world use.
- Evaluating and supporting social impact.
- Using social simulations to plan for the future.
- Communicating science in a clear and responsible way.

### Program:

Day 1 (13.04): Registration, networking and workshop on turning science into value.

Day 2 (14.04): Creative session “CRAFT InspiratiON”, opening keynote and “Taste of the World”.

Day 3 (15.04): Sessions on social impact, metrics and simulations.

Day 4 (16.04): “3MT Talks”, innovation panels and Gala Dinner.

Day 5 (17.04): “CRAFT BEER: Future Readiness”, closing ceremony and cultural programme.

Registration closes on February 15th, 2026 - [registration form](#)

Participation fee: 150 EUR (paid after confirmation of participation)

Participants are eligible to apply for Erasmus+ mobility funding at their home institutions. Support with required documentation is provided.
