Nueva versión de la herramienta ALCE en PoliformaT

Ya se encuentra disponible en poliformat PoliformaT la nueva versión de la herramienta ALCE, que facilita la corrección de exámenes tipo TEST realizados en papel.

Esta actualización tecnológica **garantiza las condiciones de seguridad y servicio de la herramienta y, adicionalmente, incorpora algunas mejoras que ayudan en el flujo de trabajo de la corrección.** Por ejemplo, en la nueva versión, la corrección se realiza en los servidores de la UPV (ya no se realiza sobre el ordenador del docente), lo que, además de proporcionar mayor seguridad y capacidad de cómputo, permite que se pueda iniciar el proceso de corrección en un ordenador y, posteriormente, continuar el flujo de corrección desde cualquier otro (en casa, en el despacho, etc...). En caso de que un problema afecte al ordenador del docente, la seguridad e integridad del examen quedará garantizada, ya que toda la información reside en los servidores de la UPV.

Se trata de una adaptación tecnológica compleja, por lo que durante el curso pasado la nueva herramienta fue revisada y probada en varias experiencias piloto para comprobar la fiabilidad de la misma.

En este momento consideramos que la aplicación es suficientemente estable. Sin embargo, **al ser una aplicación que requiere del uso de medios físicos (impresoras, papeles y escáner), el éxito en su uso depende en gran medida de seguir adecuadamente las instrucciones en la confección de la plantilla y en el uso de impresoras y escáneres adecuados.** Por ello, en esta versión, se ha incorporado la opción de validar la plantilla antes del examen, para minimizar los problemas que estos medios físicos puedan causar.

Dispones de toda la información necesaria en la [wiki de la aplicación ALCE](#).

Si tienes dudas o problemas puedes ponerte en contacto con el CAU en <https://cau.upv.es>, donde contestarán a tus dudas y, si es necesario, serás transferido a un gestor especializado en la herramienta que revisará tus requerimientos

Assessment and exams

- Continuous assessment

You accumulate points during the semester (projects, assignments, presentations, mid-term exams, etc.)

- No need to register for exams

- Exam dates published before academic year begins
(they cannot be changed, be careful with overlaps)

- Final exams at the end of the semester
(in certain courses, replaced with a project)

- No additional exam sessions once the semester is over

Grading system: 0 (lowest) to 10 (highest), minimum pass 5

Safety and Emergencies

You will find a link labelled as “Emergencies” on the UPV main website (top menu)

Extreme weather (strong storms or flash floods) can happen, especially in the autumn and the spring. [This website](#) will provide up-to-date information on whether classes have been cancelled or if any other precaution is necessary

The screenshot shows the UPV website interface. At the top, the navigation bar includes 'Accesibilidad', 'Buscar', 'Emergencias' (highlighted with a red box and an arrow), and 'Directorio'. Below this, the main header features the UPV logo and the text 'UNIVERSITAT POLITÈCNICA DE VALÈNCIA'. The main content area is divided into two sections. On the left, there is a large image of a person's face with the text 'Rayan Faiz' and a link 'Conoce a la nueva Delegada de la UPV, estudiante de la ETSIAMN'. On the right, the 'Emergency level' section displays three campus cards: Vera Campus, Alcoy Campus, and Gandia Campus. Each card shows a photo of the campus, the current emergency level (Level 0), and the applicable time period (from 00:00 h 1/2/2023). Below each card, there is a detailed explanation of the emergency level, mentioning the Ministry of Health's decision and the expected minimum temperatures in Valencia province.

Campus	Emergency Level	Applies from	Details
Vera Campus	Level 0	from 00:00 h 1/2/2023	No weather warnings. The Ministry of Health has established level 2 due to the medium risk of low temperatures in Valencia province. Expected minimum temperatures below 2.9°C (threshold temperature). More information.
Alcoy Campus	Level 0	from 00:00 h 1/2/2023	No weather warnings. The Ministry of Health has established level 0 due to no risk of low temperatures in Alicante province. Expected minimum temperatures below 4.4°C (threshold temperature). More information.
Gandia Campus	Level 0	from 00:00 h 1/2/2023	No weather warnings. The Ministry of Health has established level 2 due to the medium risk of low temperatures in Valencia province. Expected minimum temperatures below 2.9°C (threshold temperature). More information.

Safety and Emergencies

The UPV [Telegram Channel](#) and [Whatsapp channel](#), as well as the [X \(Twitter\)](#) profile publish daily information for the UPV student and staff Community.

The information is usually published in Spanish and or Valencian, and it is not specifically aimed at exchange students

However, **in the event of any type of emergency that affects university life, these are the sources that will publish the latest news faster than the general UPV website or email system:** classes or extra-curricular activities cancelled due to severe wheather or any other threat, etc.
